Antwerp, Belgium

PROFILE

International Business Management and Entrepreneurship student at KdG Hogeschool, Antwerp, and registered student-entrepreneur (zelfstandige) in Belgium. 12+ months of daily, hands-on building with the Claude ecosystem and other AI tools. Runs 20+ ventures at every stage, from live and earning revenue to still on paper, and leads online and in-person communities. **Open to internships and co-founding.**

FEATURED WORK

Duuf × KdG Hackathon 1ST PLACE

Led the winning team in a 26-hour International Entrepreneurship Hackathon (12–13 March 2026): an international market-entry plan for Belgian pet-products brand Duuf, built through a Design Thinking sprint.

muszakiellenorborsod.hu — GÉP-M 2001 Kft. LIVE

Built and launched the website for a construction technical-supervision business with Claude, from the site structure and code to end-to-end debugging. Ran a full SEO audit that caught a canonical tag pointing to the wrong domain, then wrote a growth plan based on joszaki.hu and daibau.hu listings and bank loan-officer referrals.

Band marketing 2023–2026

Since 2023: positioning, content and audience growth for a band.

Meridian IN DEVELOPMENT

Agency–client workspace (web app, client portal, mobile app): scheduling, approvals, CRM, proposals, reporting. Built with Next.js, Expo and Claude Code. Live demo on the portfolio.

Further ventures (20+ in total) across software, automotive, agri-tech and consumer products. Details on request.
